MIDLAND MAN HELD ON BLACKMAIL CHARGE

POLICE CLAIM MARKED MONEY WAS FOUND ON STORE OWNER

Patsy Sinicroppe Released on Bond of \$3,000.

TWO SUMS PAID

Frank Barone Files Affidavit in New Brighton on Court.

Charged with blackmail in extorting \$235 from Frank Barone, mill worker, Patsy Sinicroppe, proprietor of a wholesale grocery in Beaver avenue, Midland, was held for Beaver county grand jury under \$3,000 bail by Justice J. W. Lewis, New Brighton, Pa., last night. Bail was furnished.

Sinicroppe was arrested in the home of Joseph Migliore, 713 Union avenue, Midland, last night by Chief William Fox of the Midland police force, County Detective D. J. O'Loughlin, Beaver, and state police, upon affidavit of O'Loughlin. In Sinicroppe's possession was found \$35 in marked bills which Barone is said to have turned over to him, police said.

The grocer is charged with having threatened Barone with death if he refused to give him \$300. Barone gave him \$100 on Tuesday night and a second sum Wednesday night, according to police. Barone then informed police who laid the trap for the arrest.

Today

Mexico's Puzzle.
Mr. Rockefeller Has Fun.
Honor to Russia.
Kellogg's Happy Day.

By ARTHUR BRISBANE
(The opinions expressed in this column are strictly those of Mr. Brisbane and not necessarily in consonance with the policies of The Review.)

MEXICO with Obregon murdered finds itself in a puzzling, difficult position. But Calles has the army, which means that he has Mexico. He will undoubtedly run the government until he chooses, through the Congress, a man to succeed him. Or a dictatorship might arise.

CONSERVATIVE Mexico and foreign capital dread the seizing of power by an ultra-radical labor group. But, again, Calles has the army and the army has the weapons, and uses them without hesitation.

THE young murderer of Obregon was evidently a political fanatic, quite willing to die, in carrying out a plan. His last note addressed "To my family" and signed Juan, read "Knowing that I will die, in carrying out my principle, I bid you farewell."
Fortunately for peace and order, the instinct of self-preservation prevents the writing of many such notes. Each man's life comes first in his estimation. Wise Providence arranged it so.

JOHN D. ROCKEFELLER, almost 90, enjoyed himself on Tuesday. He could not find an oil well, a diamond mine, or make 20 millions in a quick turn. That would not interest him. He drove a coal wagon down the street in Oswego. With the driver's consent, he climbed to the high seat unaided, and was sorry to go back to his big limousine.

LEARN, oh little man, that there is happiness in the world outside of owning a billion dollars, or a big limousine. The interesting thing is doing something yourself, driving a coal wagon, or raising the most wonderful baby.

WHATEVER your opinion of Russia and her Bolshevism, you will notice this—Russia sent the ship and fliers that rescued the groups of men stranded hopelessly in the Arctic.
Except for the work of courageous Swedish fliers, Russia did all that was done. Other big European powers were content to watch the Russian ice breakers at work.

THIS is a happy day for Secretary Kellogg. Britain accepts his "no war plan," which now stands as an international agreement. Chamberlain was cheered as he announced British adherence in the House of Commons.

TWO MEN LOST IN BOAT CRASH OFF CAPE MAY

Coast Guard Craft Collides With Steamship.

FOG IS BLAMED

Culbertson Rams Patrol Vessel C-G 113 Amidship.

CAPE BAY, N. J., July 20.—Two coast guardmen are believed to have been drowned when the 75-foot, U. S. patrol boat, CG-113 was rammed and sunk early today by the passenger steamship, Culbertson.

The two men believed drowned were Clarence Haines, 29, of Pleasantville, N. J., first class machinist's mate on the boat, and DeWitt T. Hale, 25, of Atlanta, second class machinist's mate. There were seven men on the boat, four of whom were asleep when the collision occurred, according to the story told by the five survivors. The government boat was cruising about in the heavy fog when it was suddenly struck amidship by the big steamer. The survivors said it rolled over twice and sank. Arthur P. Becker, in charge of the boat, and James Daubler were in the pilot room. Cecil Bogges, chief machinist, was in the engine room.

Five Survivors Picked Up
Haines and Hale, the two missing men, and Urban Wright and Thomas Riddick, who has escaped two previous crashes, said he was suddenly awakened as the boat rolled over and seized the top of the ladder leading to the deck. Wright was unable to explain how he managed to get clear of the cabin, but said he thought he was washed free by the water. Haines and Hale were presumably caught and carried down with the boat.

REV. A. A. REAVLEY IN PULPIT HERE

Pulpit of the First Methodist Episcopal church will be occupied by the Rev. A. A. Reavley, pastor of the First Methodist Episcopal church at Wellsville, at the 8 o'clock service Sunday night.

The Rev. Warren O. Hawkins, D. D., and his family will leave July 30 for a three weeks' vacation which will be spent at Lakeside. He expects to return home again August 29.

JOHN F. HOOVER, AGED 38, DIES

John F. Hoover, 38, died last night in his home, 835 South street, after a long illness.

He leaves three brothers, Joseph, Andrew and Edward Hoover, and one sister, Mrs. Lulu Campbell, all of East Liverpool.

Funeral services will be held in the home at 2 o'clock tomorrow afternoon. Burial will be made in Spring Grove cemetery.

CALL FOR BIDS ON RAILROAD TRACK SEWER IN SPORTS LOT

Enlarge Program for Patterson Field Improvements.

WILL COST \$4,000

Engineer Daugherty Explains Plan of Drainage.

Bids on the construction of the main drainage sewer, a culvert under the Pennsylvania railroad tracks, and manhole for use in protecting the field in the event of a river flood, will be sought by the board of education as part of the plan to complete the first unit of the improvements before the opening of the 1928 football season. It was announced today. Approximately \$4,000 is available for the job, according to a report made at the meeting of the board of education last night. The building and grounds committee was instructed to call for bids which will be considered at an adjourned session Saturday afternoon.

The board will proceed with the construction of the culvert under the railroad tracks without aid from city council. The culvert which will be 36 inches in diameter and about 200 feet in length will be of corrugated iron. Its cost has been estimated by J. R. Daugherty, Youngstown sanitary engineer, at \$2,000. The main sewer and the manhole will cost another \$2,000. The culvert will be driven under the railroad tracks from the south side of the embankment with the use of jacks.

Property Deal to "Square Up" Lot.
Daugherty advised the board that arrangements had been made with Charles Shelton, owner of the two lots at the northeast corner of the field, for a triangular shaped tract of land which would "square up" the athletic field and avert crowding the proposed tennis courts. No part of the field, given the school by the late Monroe Patterson, is changing hands, the deal having to do with a blind alley between the athletic field and the Shelton property which both own.

BUS SERVICE FOR HILLTOP

Suspend Trolley Car Runs on Pleasant Heights.

The Steubenville, East Liverpool & Beaver Valley Traction company will substitute bus service for street cars on the Pleasant Heights line, commencing tomorrow, pending the completion of the West Ninth street improvement.

Company workmen yesterday started to tear up the brick between the rails near Fenton street and the removal of the tracks will be started tomorrow. The tracks will be rebuilt from Lisbon to Fenton streets. George B. Patterson has been awarded the contract for the paving. The street will be resurfaced with amiesite outside the car tracks.

Downtown terminal of the bus will be on Dresden avenue where the Pleasant Heights cars stop. Its route will be to Sixth, Jefferson, West Eighth and Lisbon streets to the Pleasant Heights school, hilltop terminal. Buses will leave the Diamond on the hour and the half hour and Pleasant Heights 15 minutes after and 15 minutes before the hour.

School Enumeration in District Increases From 6,020 to 6,219, Annual Report Shows

Enumeration in the East Liverpool school district jumped from 6,020 to 6,219, an increase of 199, within the last year, according to figures submitted to the board of education last night. This is the largest enumeration ever reported for the district which includes the city proper, Liverpool township and a section of St. Clair township.
Children who have passed their fifth birthday and those who have not yet reached their 18th milestone were listed by the enumerators—L. A. Hoffman and H. D. Rist, elementary school principals, who started the census work following the closing of schools for the summer. The enumerators were paid at the rate of five cents a name.
About 5,500 children were enrolled during the closing month of the school term, and judging from the figures of the enumerators even a larger enrollment will be shown next fall. Superintendent of Schools C. S. McVey told members of the board last night that there would not be a vacant school room in the district next year and that many of the schools would be overcrowded.
Two rooms in the West End building and one room in the Washington school which were vacant last year will be re-opened next fall. The board is also considering the advisability of opening a school in La Crosse for first, second, third and fourth grade youngsters. Whether the

Other officers include: First vice-president, John Jarner, zewski, Cleveland; second vice-president, Walter Ludwig, Toledo; secretary, Theodore Wetterstrom, Columbus; treasurer, L. W. Funk, Columbus.

Moosbrugger and Charles Ashbrook, Finlay, were chosen members of the association's council.

The visiting druggists attended a banquet given by the Traveling Men's auxiliary last night.

SUSPEND TWO MORE PATROLMEN

CLEVELAND, July 20.—Two more patrolmen stood suspended from the Cleveland police force today, bringing the total of officers suspended this week to six.

Police Chief Jacobus Graul suspended the patrolmen last night after a raid in which three women, who were arrested, involved the two men.

Four of Graul's men were suspended Tuesday after a hearing before Acting Safety Director Elliot H. Whitlock on charges by an 18-year-old girl. Graul stated that policemen "on or off duty found in law violator's houses would be immediately suspended."

MANNED FREIGHT

Elkhorn, Neb., Youth is Struck by Lightning.

OMAHA, Neb., July 20.—Five lives were lost in a terrific rain and electrical storm which struck this section during the night.

The dead are: D. D. Tucker, 44; George Wilson, 43; Jesse Davis, 22; and John Butts, 23, all of Stansberry, O., and Leroy McCord, 27, Elkhorn, Neb.

The four Stansberry men, Wabash railroad trainmen, were killed when the freight train they manned crashed through a trestle near Mineola, Iowa. McCord was killed by lightning.

SEND MIDSHIPMAN TO HOSPITAL

Attorney and Mrs. Walter Stevenson, West Fifth street, were advised yesterday that their son, Harry C. Stevenson, a midshipman in the United States Naval academy, has been removed to the government naval hospital at Chelsea, Mass., where he underwent an operation for appendicitis.

Young Stevenson recently completed his second year at Annapolis. The midshipman was on a summer cruise on the U. S. S. Arkansas when he became ill.

LIGHTNING HITS HOLLAND HOME

Lightning struck the house occupied by Harry Holland, First avenue, East End at 12.55 o'clock this morning, spattering plaster in one of the second floor bedrooms. Firemen from the Central station responded to the call but found no fire.

PISTOL SHOT KILLS BOY, 11

Arthur, Son of W. A. Knox, Youngstown, Victim.

Arthur M. Knox, 11, son of Mr. and Mrs. William A. Knox, Youngstown, formerly of East Liverpool, is dead today from the effects of a bullet wound in his head, sustained, relatives say, while playing with an army revolver.

The boy, according to his parents, is believed to have been practicing target shooting before a mirror when the weapon was accidentally discharged. He lived only a few minutes after the shooting.

The elder Knox, who was physical director at the Y. M. C. A. for three years, left here about five years ago when he and his wife, who were professional marksmen, accepted a vaudeville contract. Mrs. Knox, the victim's step-mother, was formerly Miss Nell Miller, teacher in the local high school. Knox recently has been engaged in the automobile business in Youngstown.

BABY UNINJURED

Attack is Made as Load of Furniture Leaves House.

ST. LOUIS, July 2.—Gang warfare flared in St. Louis today as three men and one woman were wounded with buckshot fired into their automobile. A baby in the arms of its mother was uninjured but the woman received severe wounds.

The shooting occurred just as the last load of furniture left a house in South St. Louis. The family had entered two cars when two other automobiles drove up loaded with gunmen and opened fire.

One man, who gave his name as Joe Stallons, was found slumped over the steering wheel of his car. The injured woman gave her name as Mrs. James George.

Stallons told police he had been visiting at the house, helping with the moving and the two automobile loads were preparing to drive away when they were fired upon.

U. S. TENNIS TEAM DOWN ITALIANS

ROLAND GARROS STADIUM, PARIS, July 20.—Playing without the services of their ace and team captain, Bill Tilden, the American Davis Cup tennis forces virtually cleared their way into the challenge round with France by taking the first two singles matches in the inter-zone finals with Italy. Francis T. Hunter, New York, and Johnny Hennessey, Indianapolis, scored the victories for America, each winning his singles match in straight sets.

Hunter won in hollow fashion from Gaslini, of Italy, who was substituted for Stefani, regular singles man, 6-1, 6-1 and 6-0. Hennessey had slightly more difficulty with Baron De Morpurgo, Italian ace, but finally prevailed, 6-4, 7-5 and 6-2.

GIRL MISSING; ASK POLICE AID

Michael Stevens, Beaver Falls, came here today to seek police assistance in the search for his 14-year-old daughter, Josephine, who is believed to be working in a pottery.

The girl left home Monday in company with one Irene Dunn, 13. They are said to have been brought here by two young men in an automobile.

RELIEF HOPES ARE DASHED FOR THREE DAYS AS STATE SIZZLES

Many Prostrations Reported From Sun's Blistering Rays.

97 IN ZANESVILLE

Heart Attacks, Drownings and Lightning Claim Victims.

With a toll of 16 dead and many heat prostrations reported, Ohio's hopes for temporary relief from the sweltering, muggy atmosphere of the last three days were dashed today following predictions made from the government weather bureau at Columbus that no escape from the sun's blistering rays is in sight for at least three days, and possibly later.

Low-pressure Grips Ohio.
An intense, low-pressure area, extending from the southwestern portion of the United States northeastward to the St. Lawrence valley holds Ohio in its grip and until this area passes into new territory Ohioans will continue to swelter, according to weather officials.

William H. East, 64, died of a heart attack, superinduced by heat at Zanesville yesterday, where the highest temperature for the state was reported with a mark of 97 degrees.

Miss Minnie Marshall's death from injuries sustained when she fell from a 10-story window at Toledo, where the mercury soared to 92 degrees, was believed due to losing her balance as she leaned out the window, seeking relief.

At Bucyrus, where a mark of 93 degrees was recorded, Oney H. Morrison, 53, died.

Sandusky reported one fatality with the death of Mrs. Joseph Homegardner Boker, 65, caused by the heart attack following heat prostration. County jail prisoners at Sandusky reported the heat so intense that they were able to fry fish, given them by small boys, on rocks near the shore. Hamilton reported one death, that of Charles Post, 55, who succumbed to heat prostration.

Dallas Ziegler, 11, was drowned in the Miami river near Bellefontaine. At Cincinnati, two fatalities were reported as the mercury climbed to 90 degrees. Orval Wilson, 19, drowned when his canoe capsized. Mrs. Anna Ritter, 55, died from heat prostration after being overcome while riding on a street car.

Aldina Stankel, 11, was drowned while swimming near Berea.

Three Killed by Lightning.
Newcomerstown reported one death, attributed indirectly to the heat, that of James Hinds, 70, who was killed when struck by lightning.

Two deaths were recorded in Cleveland, Edward Rosenbaum and Joseph Tesar, 15, both succumbing to heat prostration.

Joseph Simon, 15, was drowned while swimming in the Black river at Lorain.

Charles Hyatt, 67, was found dead in bed in his home at Columbus early today. Death was attributed to heart trouble superinduced by heat.

Archie Robertson, at Akron, was struck and killed by lightning as was Eunice Sheldon, 11, at Ohlton.

MERCURY HITS 93 MARK HERE

Announce Birth of Son.
Mr. and Mrs. Warren Riley, Florida avenue, Chester, are the parents of an eight and one-half pound son, born this morning.

Demands for Ice Heavy; Consumption of Water Jumps.

No heat prostrations were reported in East Liverpool today, the third day of the torrid wave.

Mercury in the thermometer on the west side of the Central fire station, St. Clair avenue, at noon registered 93 degrees as compared with 91 degrees at the same hour yesterday. It reached the 95-degree mark in the downtown district at 3:30 o'clock yesterday afternoon.
Ice dealers report demands heavy but that there is no danger of a shortage. During the 24 hours ending at noon today, 4,147,000 gallons of water were pumped from the municipal filtration plant near the state line into the city's three reservoirs. The ordinary summer consumption is from 3,500,000 to 4,000,000 gallons daily. Due to frequent rains, little water is being used for sprinkling purposes, water works employees say.

CONVICTED MAN KILLS KEEPERS AND HIMSELF

Investigate Smuggling of
Revolvers in New
York.

TEAR BOMBS USED
Fourth Offender Ends
Life When Break is
Frustrated.

NEW YORK, July 20.—A searching investigation was launched today in an effort to determine where John P. McCabe, a prisoner in the Bronx county jail, obtained the two revolvers with which he killed two keepers in a jail-break attempt last night. McCabe, who was faced with almost certain life imprisonment as a fourth offender under the Baumes laws, shot and killed himself when other keepers blocked his escape.

Officials believe the weapons were smuggled to McCabe by a young Italian who visited him at the jail yesterday.

All available police were called and tear bombs and riot guns were rushed to the scene to prevent a further outbreak. Ten thousand persons crowded to the streets around the jail.

Keeper Morris Broderson, 34, was shot when he entered McCabe's cell to lead him out for an hour of exercise. Keeper Daniel Horgan, 53, who tried to stop McCabe on the floor below, was the next victim. Both died almost instantly. They were unable to protect themselves because the keepers were not allowed to carry guns on the theory that convicts might snatch them.

Mental strain, night clubs, cocktail drinking and excessive smoking are named by a European specialist as four reasons for the great increase in the number of cases of heart disease.

Fortune and Want are the names of prosecutors who recently appeared at the North London police court.

Quality, Economy, Satisfaction Are the Measures of Our Service

Serving the Public

Under the present age every successful man is consciously or unconsciously forced to serve the public.

His surplus earnings go into more factories; he makes more goods; employs more labor; increases the supply of human comforts and necessities. About all he has for himself is a good living and the satisfaction of doing something worth while. The urge that causes successful men to keep on working is not the desire for a swelling bank roll, but the thrill of doing something worth while and doing it well.

OHIO RIVER BOAT TO BE NAMED IN HONOR OF LATE SAM N. CRAIG

Union Barge Line's All-steel Craft Will be Christened as Tribute to Airplane Victim.

MIDLAND, Pa., July 20.—Name of Sam N. Craig, Beaver, late president of the Midland Barge company, who died in an airplane crash last February, will be perpetuated on the Ohio river, where his activities centered, when the Union Barge Line corporation names its first all-steel towboat in his honor. Craft which is the first of three all-steel towboats now under construction at the Midland yards of the Midland Barge company, will be launched early next month.

Officers of the Union line voted to name the towboat the Sam N. Craig.

When the three boats are completed in November they will be operated in the Pittsburgh-Memphis trade. They will include innovations expected to make them the finest ships of their kind on the river.

CARNIVAL WEEK DEBTS ARE PAID

Plans were considered to increase the number of men on the roster of the department.

PLAN PERSONAL VISITATION

Midland Presbyterian Church First to Enroll.

MIDLAND, Pa., July 20.—Midland Presbyterian church is the first of its denomination to enroll in the personal visitation evangelistic campaign to be held in Beaver county churches May, 1929, as result of recent action of its trustees.

Campaign, which will extend from May 5 to 17, will be under the supervision of the Rev. Earl Kernahan, D. D., West Somerville, Mass., whose work in the last 57 months has resulted in 150,000 conversions.

Following a week of intensive training, workers will make visits to homes in the community. Intensive preliminary survey of the city will be made by Dr. Kernahan before opening of the drive.

DONAHEY FREES TWO PRISONERS

Marion Payroll Robber and Embezzler are Pardoned.

COLUMBUS, O., July 19.—James F. Madden, Columbus, alleged participant in the Marion \$4,000 payroll car robbery in 1925 and Howard A. Stevens, Marion, convicted embezzler, both prisoners in the Ohio state penitentiary, today had been pardoned by Gov. Vic Donahey.

Both of the men are in the institution hospital suffering from tuberculosis. Madden, it was said, has been unable to sleep for 28 days.

Stevens' death is imminent because of tuberculosis, the prison physician said in recommending his pardon.

Madden, according to penitentiary officials, was serving a 19 to 25-year term for robbery following his conviction by the Marion county courts of being one of the participants in the Marion payroll car robbery. He was received into the penal institution in March, 1925. His illness in the penitentiary was brought on, it

was reported, when he was kicked by a horse while working in the blacksmith shop. Tuberculosis set in when he was recovering from the accident.

Stevens, who was received into the penitentiary Oct. 21, 1927, is serving a three to 10-year sentence following his conviction on embezzlement charges growing out of the misappropriation of \$9,900 of the assets for which he was executor.

Both of the former prisoners will be cared for by relatives, it was said.

In the building of a new motion picture theatre at Sydney, Australia, products of 15 American companies were used.

Coal Field Peace Near

Peace in the bituminous coal field appears to be imminent, as a result of action of the policy committee of the United Mine Workers in voting at the Indianapolis meeting to authorize separate agreements between operators and district officials on a "mutually satisfactory basis." Already mine owners have approached union leaders with a view of ending the bitter controversy, according to President John L. Lewis of the miners' organization.

Depressed conditions, which have been noticeable in Columbiana county, especially in the West Point district where appeals for food and clothing have been answered at not infrequent intervals by East Liverpool, prompted the decision of the miners who have faced an uphill fight.

The decision means abandonment of the 1924 Jacksonville scale, under which the miner's minimum pay was \$7.50 a day, long considered the front-line entrenchment of the men who toll in the shafts and slopes to produce the country's fuel.

Although the number of miners is small in comparison with workers in other industries in Columbiana county, East Liverpool has seen the distressing effects of the coal strike, for Salineville, Lisbon and the Salem district, as well as West Point and other zones north of here, were classed as mining communities.

Indicative of an early settlement of the dispute is the request made yesterday afternoon by District No. 6 for a meeting with the Ohio Coal Operators' association in Columbus on July 26, for the purpose of arranging a joint conference to negotiate a wage scale.

All signs point to peace, and adjustment of the differences should prove an incentive toward improvement of business conditions everywhere, for it is admitted that the mine controversy has proved costly not only to the principals but to country as a whole.

Boys As Snoopers

The executive council of the Boy Scouts' organization in Cleveland has instructed the boys—they all are under 17 years of age—to make it their business to seek to persuade women to give up the cigaret.

It is proposed that the boys shall approach the women whom they see smoking in public and lecture them on the habit, telling them that smoking cigarets coarsens women and detracts from the ideal of fine motherhood.

Maybe the executive council is right. Maybe smoking does just what is said of it. Perhaps there are many fine people who dislike to see women and girls smoke. And there are many fine women and girls who both smoke and eschew the cigaret.

But somehow one can not help feeling that the result of this effort to turn the Boy Scouts, an entirely inoffensive and in many ways admirable organization, into snooping busybodies is entirely foreign to the tenets of Boy Scouts and distasteful to the parents of many of the boys in scouting.

One of the first things such a plan will do is to corrupt the morals of the boys. More than that, it likely will incense the women approached, and the parents of the boys themselves, to such an extent that the scouts will emerge from the process depleted in numbers and considerably lower in prestige.

Dog Intelligence

That Captain Earl Davenport, a seaman of Elizabeth, New Jersey, did not suffer for lack of surgical attention, following an accident on his motor boat, and was speedily conveyed to a hospital in his home city was due to the intelligence of his dog, a white collie.

Davenport was driving his boat close to the shore when the motor exploded, breaking one of his legs and inflicting other injuries and hurling him into the water. He managed to reach the shore, but was unable to proceed any further. As he knew that the nearest house was a mile away and he was in an unfrequented spot, he thought he would have to go through the night without assistance. To add to his worry, his dog, which had followed him into the water, had left him, but he did not worry long, for soon he heard his dog barking and approaching nearer and nearer.

A short time after, the occupant of the house mentioned told Davenport that he had been awakened by the barking of a dog which was scratching away at his door. He got up and dressed, and followed the dog, which, barking joyously all the way, led him to Davenport.

What was it, animal instinct or intelligence on the part of Laddie, the collie?

Immovable Car Windows

J. T. Tatum, an inventor, at the American Railway association's recent Baltimore convention, called for a responsive car window, responsive, that is, to an ordinary amount of muscular pressure.

The immovable car window is not so much a consequence of bad carpentering aggravated by softened varnish on hot days, as it is a rigid exponent of a traditional theory of ventilation in railroad coaches. The tiny slots in car roofs usually are closed, and conductors are apt to be staggered by an appeal for a whiff of air.

The scientists, presumably, have installed thermometers in many trains. The mercury is there to warn you to stop fidgeting. The place actually isn't as hot as it seems. Tatum ought to be aware of these facts. Tatum should go to France where not even the fiction of adjustability is maintained in express coaches. Then he might see how advanced the folks are over here, for at least here in the United States the pretense is made that the car windows can be lifted.

So-called dog days are happy days for the Pittsburgh Pirates, who won nine straight games after an in-and-out performance during the first half of the baseball schedule.

Tunney and Heeney will crowd Hoover and Smith for newspaper space during the coming week.

Seemingly even the coal strike cloud has a silver lining.

HASKIN DAILY LETTER

By Frederick J. Haskin

WASHINGTON, D. C., July 20.—The close relation of traffic regulation and waste is one of the theories of Herbert Hoover. That there is such a relationship has been proved, and that there is a remedy for it is the contention of the committee which has spent four years studying the problem.

With the secretary of the department of commerce, the man who abhors waste, at its head, the National Conference on Street and Highway Safety, composed of representatives of ten associations interested in public safety, has uncovered certain facts that will make business men sit up and take notice. Whereas they have always thought that most urban traffic regulations with consequent one-way streets and numerous prohibitions tended to drive trade from their houses, it is made apparent that lack of such tends for congestion and enormous money loss.

However, business men will not quarrel if primarily, in this instance, Herbert Hoover's desire to eliminate waste is humanitarian. He opposes the waste of lives. With an annual toll of life from traffic accidents approximating 25,000 and serious injuries numbering twenty-five or thirty for every life lost, everyone is concerned.

As when he brought about the standardization of beds, bricks, and screws, he abhors waste of money. With an annual property loss of 600 million dollars due to vehicle mix-ups, and the annual cost of traffic congestion amounting to two billion dollars, those with a comprehension of dollars and cents should take an interest in tackling the problem. It has been said that business men pay a congestion tax larger than their regular taxes.

The cost of wasted time of vehicles and persons due to congestion amounts daily to a million dollars in New York and more than a half million in Chicago.

Two years ago a set of proposed acts known as the uniform vehicle code, formulated after far-reaching investigation and many conferences, was issued as a pattern for state laws. Ten states have adopted as a whole or in part this fourly rope which will guide in the labyrinth of traffic. The strands are proposed registration, anti-theft, operator's and chauffeur's licensing, and the operation of vehicles on the highways acts. Pennsylvania adopted the code almost in its entirety, and three or four states adopted it except for the act requiring the licensing of operators.

There are still some who dispute the worth of that kind of regulation. Many states in the middle west and south refuse to consider it.

Although there has been a greater increase in automobile registration in the northeastern states where there is compulsory licensing, the increase in the number of automobile fatalities has not been so large as in those middle western states which do not require it. In six years such fatalities increased 64 per cent in the states from Maryland, Wisconsin, Minnesota, Missouri, Kansas and Nebraska, and 230 per cent in Virginia, North Carolina, South Carolina, Kentucky, Tennessee, Mississippi, and Louisiana.

Representatives of the same associations which backed the formulation of the Uniform Vehicle Code have been working on the composition of ordinances which will benefit not only some 3,000 towns and cities throughout the country, but the tourists who now suffer because of the maze of conflicting regulations.

The new code does not aim to be arbitrary, but provides alternatives. For example: Both pedestrians and motorists are affected, being regulated and safeguarded. However, the provision is made that pedestrians must yield the right of way to vehicles when the go sign or light is with the driver, and a substitute is provided for those communities which prefer to require pedestrians to wait for the go sign or light at regulated crossings.

Throughout the code such options are afforded, because the purpose of the conference is to establish uniform ordinances, and it is believed wise not to defeat this purpose by being so narrow that municipalities will reject the whole.

Aside from the standardization of regulations another benefit derived is the careful wording of the articles and sections. Approval of the American Bar association gives reasonable assurance that the phraseology and terminology are free from jokers. Even congressional legislation occasionally requires interpretation by the supreme court, and it is well known that some ordinances are worthless because of a misplaced comma.

The ten associations which have organized and financed the conference are: American Automobile association, American Electric Railway association, American Mutual Alliance, American Railway association, Chamber of Commerce of the United States, National Association of Taxicab Owners, National Automobile Chamber of Commerce, National Bureau of Casualty and Surety Underwriters, National Research Council, and National Safety Council.

Questions And Answers

Many readers send in questions signed only with initials, asking that the answers appear in the newspapers. The space is limited and would not accommodate a fraction of such requests. The answers published are ones that may interest many readers, rather than the one who asks the question only. All questions should be accompanied with the writer's name and address and two cents in coin or stamps for a reply. Send your question to the East Liverpool Review Information Bureau, Frederic J. Haskin, Director, Washington, D. C.

Q. Did our early presidents live longer than the later ones? E. S.
A. Taking the Civil War as a dividing line, the average length of life of the early presidents was 73.8 years. The average life of presidents since the civil war has been 61.67 years.

Q. Is helium a poisonous gas? C. W. L.
A. Helium is non-poisonous as well as non-inflammable.

Q. How many members of Masonic lodges are there in the United States? W. W. H.
A. The membership of the Masonic organization in the United States is 3,134,561.

Q. What is meant by a zone in postal parlance? S. J. B.

A. According to United States postal regulations the country is divided into units of areas 1-2 of a degree square, which unit of area forms a separate center for 8 encircling zones with radii of from 50 to 1500 miles for the first 7 zones, the 8th zone covering the territory beyond the 1500 mile limit. Parcel post rates are regulated in accordance with these zones.

The red haired mother with three red haired daughters who are all on the stage. Chic Sale in from Scarsdale loafing in front of a drug store. Just a country boy. Sign: "Day and night lipsticks." Jay E. House, a Topeka, Kan., boy who made good in the city.

James Montgomery Flagg's eyelashes. Pirie McDonald, the photographer, who charges 100 a sitting—photos cost. Why are all the beautiful girls hanging on the arms of ugly men? Three squads of motorcycle cops. If it is another flyer I won't look.

Girls who try to appear languid like Greta Garbo. And look like—well, you cannot blame girls for trying. Could you go for that suit?—green with a pronounced pink stripe. Still, I suppose some people look at all of us and hide a grin.

Magnificent establishments featuring "table luxuries" with clerks in frock coats. Mrs. E. M. Statter, widow of the hotel man. Cakes that try to appeal to the "haut monde" with menus in French only. Those expensive furniture store windows showing completely equipped rooms.

Ray Long Rolls-Roycing it. I remember—but no matter. Boys wearing snow white Alpine hats with dinner clothes. Actors resting on their dignity until the fall stampede. The iron-studded doors where knowing raps bring an alcoholic saturnalia of hos-

pitality. And headaches. Paris styles in New York windows before the tourists get home. What sort of a racket is that?—a man standing on a high window ledge blowing a bugle. Probably his wife locked him out. Anything can happen on this mad little isle.

YOUR HEALTH

An Ounce of Prevention Is Worth A Pound of Cure.

By Dr. Royal S. Copeland.

There are many things about a baby which a young mother is not expected to know. I read of a mother who just presented her husband with the twenty-second child and all the brothers and sisters are living! That mother must know a lot about babies. But the average mother cannot be expected to recognize every sign of approaching trouble, or to properly analyze the significance of every little symptom.

To a trained observer the scales, the skin, the eyes and the temper tell everything about a baby. They mean little to the mother. She is often in doubt. She has many a worry over the infant.

Whenever the mother suspects something is wrong but does not know just what it is, she should consult the doctor or go to a baby health station for advice. It is not well to delay. Many times the welfare and, perhaps, the life of the little one depends on the right care, applied early. Loss of appetite, particularly, is one of the symptoms which should not be overlooked. You cannot be governed in your opinion of the child wholly by the appetite of the baby. There may be loss of weight from loss of appetite, with refusal of food. There may be loss of weight from indigestion due to the indulgence of an over-stimulated appetite. A ravenous appetite may be due to abnormal conditions. In short, then, the appetite is not a positive sign of health, or of the lack of health.

Failure of the baby to take his food may be due to one of several causes. Let us see what some of them are:

A sore throat or a sore mouth may be the cause. It hurts to swallow, or it hurts to feed. Naturally, the infant declines to eat because of the pain when it is attempted. The delicate tissues may be injured by something the baby has put in its mouth or, if it has reached that age, there may be intense soreness of the gums from teething.

Probably the most common cause of lost appetite is wrong feeding. By this I mean the feeding of the wrong food, or giving too much of the right food. Both are common faults.

Perhaps the most frequent mistake in infant feeding is the giving of a mixture too strong in its milk content. Reducing the amount of milk and sugar, or giving less top milk may speedily restore the appetite.

This is a very general statement, of course. It must not be considered as anywhere near infallible. Instead of acting on your own account, it is better in every case to consult your doctor and follow the advice he gives after a personal examination of the child.

Another piece of general advice is to cut down the number of feedings, increasing the interval between them. You know, you have no appetite if your meals are too close together. It is the same with a baby.

Acting on these suggestions will be likely to increase the appetite and prepare the child for a richer mixture and a larger quantity of food. But don't neglect to seek your doctor's advice if the trouble does not yield promptly. It is much easier for him to bring about speedy relief if he is called early. It is, indeed, true of baby's ailments that "a stitch in time saves nine."

Where's the Old Dinner Pail?

Several hundred employees of factories in three suburbs of Boston became seriously ill after they had eaten their lunches Monday noon. It developed from hospital researches that all of them had received their food from a common source—a Boston concern which makes a specialty of providing workers with lunch boxes.

Mill customs seem to have changed since the days when Mark Hanna was giving the nation his billboard portrayal of the great American full dinner pail, a luxury which was the birthright of every toiler. In that era the full dinner pail was filled with food prepared at home, and not handed out wholesale by a middleman. Since the present campaign is likely to present this same dinner pail as one of its leading issues, the query rises whether in view of this Boston substitute, whose counterpart seems to exist in every great American city, there is such a thing as an old-fashioned dinner pail any more, its varied and home-cooked contents reflecting the skill and prosperity of the household.

If the cancerer and chain luncheon have deprived the country of one of its most valued emblems, there is a new peril at hand—Akron Beacon-Journal.

What Do You Do With Your Spare Time?

By J. J. Mundy.

Are you waiting till you lose your job before you try out some plans you have for adding to your income? Riding along so comfortably at present, you think, what's the use of worrying?

You are making as much effort as you care to expend and therefore you refuse to make practical use of your leisure.

Most folk know how to work well and industriously when it is time for the daily grind.

But it takes real gray matter to realize that the spare time, the leisure hours are the most valuable part of the day.

When a man or woman is working at routine, in the thick of a day's rush there is no time to develop new ideas.

But after the day's work, why don't you use that rest period to put over the thing that you profess to believe in as a money-maker?

Your idea may be popular today and by the time you get ready to put it out the public may be out of the notion.

Other and newer interests may be before the public and you did not strike while the iron was hot. Get the market while it is valuable.

It may not last long.

City Considering \$10,000 Loan Plans

Mayor W. L. Fogo Suggests That Small Amounts be Obtained as Needs Arise to Save Interest Charges.

Mayor W. L. Fogo and other Wellsville officials today were considering plans for the borrowing of \$10,000 as authorized by the state tax commission, to pay for storm damage repair work.

Methods by which the city will make the loan have not been determined definitely.

The question as to whether it would be advisable to borrow the entire sum at once or to make loans only as they are needed is being considered by city officials.

The latter plan is favored by Mayor Fogo, who points out that a loan only for the amount of money that is needed to pay off present bills would decrease the amount of interest that the city would be charged were it to borrow the entire sum immediately.

The city owes, for instance, several bills that have been contracted to date in repair work. The mayor suggests that enough be borrowed to pay these off and then, when other debts are contracted, additional loans be made to meet them.

Work has been started on the relief of drainage conditions in Thirteenth and Fourteenth streets.

Method of repairing the break in the 16-inch main at the third mill dam is still undetermined. Where the main crosses the creek, there is probably a 15-foot drop caused when the storm

washed out the dam, above which the main crossed. Elbows in the main would cut the pressure, it is believed. In the event that the expense is not too heavy, it is possible the city will trestle the line across the creek at this point.

Mayor Fogo and Director George Imbrie were investigating conditions this morning in McQueen's run hollow where, it was reported, a quantity of timber had been cut and rolled into the run that empties into the big storm sewer.

SUNDAY PROGRAM AT YELLOW CREEK

Regular services will be held Sunday in the Yellow Creek Presbyterian church. The Rev. K. J. Stewart, pastor, will preach in the morning at 10 o'clock and will present an illustrated sermon at 8 p. m., entitled, "From the Wicket Gate to the Celestial City."

The pictures will be taken from "Pilgrim's Progress." Sunday school will convene at 10 a. m. Young people will meet at 7:30 p. m. The subject will be, "Keeping Fit, Spiritually, Mentally, Physically." Mrs. D. A. Smith and Willa Knepper will be the leaders.

LOYAL WOMEN HOLD PICNIC

Mrs. John Leatherberry is Hostess to Class.

Mrs. John Leatherberry entertained members of the Loyal Women's Sunday school class of the First Christian church last night in her home in the Salineville road.

Fifty-five members, husbands and guests were present. Dinner was served by the hostess and her aides on the lawn at 6:30 o'clock, followed by a short program of sports and a business meeting, the latter being in charge of Mrs. Walter Weldon.

Plans were made for a lawn fete to be held July 28 at the church.

The next meeting of the organization will take the form of a picnic at the home of Mrs. Gus Klavuhn in the Lisbon road.

Committee on arrangements for the event includes Mrs. T. F. Campbell, Mrs. T. C. McClelland and Mrs. Charles Henthorne.

ASKS JUDGMENT ON LAND CONTRACT

Forfeiture of a land contract and judgment for \$571.60 are sought in a petition filed in common pleas court by Cyrinus Eldenier against Blanche Snyder and Cyrus Snyder. The petition, which has been filed by Attorney Charles Boyd, charges that on Nov. 17, 1913, the defendants agreed to purchase from the plaintiffs lot 150 in Clark & Michaels fifth addition, Wellsville, on a land contract. Part of the agreed price has been paid. Suit is now filed for the amount due.

MRS. CARL WEST GUEST AT SHOWER

Mrs. Carl West, a recent bride, was honor guest at a shower held last night in the home of her parents, Mr. and Mrs. Walter Hawksworth, Twelfth street.

Approximately 50 friends of the bride attended. The entertainment program included music and other diversions.

Refreshments were served at the close of the affair. Mrs. West received a large number of gifts.

MRS. REESE, 22, IS DEAD HERE

Funeral Services to be Held Saturday at Home.

Following a brief illness of complications, Mrs. Ella Rolley Reese, 22 years old, 1131 Buckeye avenue, died Thursday afternoon at 3 o'clock in the East Liverpool hospital.

Besides her husband, she leaves her mother, Mrs. M. L. Reynolds, of Toronto; a sister, Mrs. Mark Anderson of Toronto; two brothers, Lester J. Rolley of East Liverpool and Carl of Wellsville.

Funeral services will be held Saturday afternoon at 2 o'clock at the late home in charge of Rev. D. E. Young, pastor of the First Christian church.

Burial will be made in Spring Hill cemetery.

'NARROWS' WALL CONTRACT LET

State Accepts Bid of Cedarville Firm.

Contract for another improvement on the Ohio river road near the "Narrows" in Jefferson county was awarded at the state highway department today.

Retaining walls are to be built along the road in Saline township; Jefferson county, to prevent washouts and landslides.

W. C. Hitt and Thomas Prugh, Cedarville contractors, were awarded the contract on their bid of \$13,481.

SALINEVILLE

The fourth union service of three Salineville churches will be held Sunday evening in the Methodist church. The Rev. Ross Wilson of the United Presbyterian church will have charge. The choir of the Methodist church will provide the music. The Rev. Peoples of Bethesda church, near Millport, will deliver the sermon.

Clara Johnson Dorrance, aged 35 years, who resided near Grant's Hill, died in the City hospital, East Liverpool, Tuesday night, after a lingering illness of complications. She was a member of the United Presbyterian church at Grant's Hill. She is survived by her husband and one son, Eugene, and one daughter Alice, also two sisters, Mrs. Clifford Randolph, and Miss Pearl Johnson; also five brothers, Charles, James, Wilbur, Louis and William Johnson, all of Salineville.

Funeral services will be conducted from the home of her brother Wilbur, this afternoon, Rev. Ross Wilson officiating. Burial in the Woodland cemetery.

The members of the Rebekah lodge held their annual picnic on the lawn at Harry Cameron's home on Maple Hill. A large crowd was in attendance.

L. T. L. OUTING HERE SATURDAY

Young People to Picnic at Hammond Park.

Arrangements have been completed for the Loyal Temperance Legion outing to be held tomorrow afternoon at Hammond park.

Members of the legion will convene at 3 o'clock at the home of Miss Kate MacGillivray, 901 Main street, and will be taken to the park from that point.

Sports program is planned for the afternoon. Basket supper will be served at 5 o'clock.

Miss MacGillivray announces that prospective members may attend the outing, also.

The Kiwanis club held its noon luncheon Thursday in the United Presbyterian dining room. S. A. Hart had charge of the program. Rev. A. H. O'Brien of East Liverpool, was the speaker. Fred Hoffman, student in ceramics at Ohio State university, rendered two solos accompanied by Mrs. Linn of Summitville. Bob Daley donated the attendance prize and it was awarded to S. B. Larkins. S. B. Larkins reported that three children had been sent to the health camp. The patient who was in the Youngstown hospital was reported on the way to recovery.

Circle No. 2 of the Methodist church met Tuesday night in the home of Mrs. H. R. Shaff, West Main street. Mrs. W. D. Holmes had charge of the program, including a reading by Josephine Shaff and duet by Misses Beale Smith and Dorothy Rogers. Lunch was served by the hostess, assisted by her daughter, Miss Josephine Shaff.

The Men's Bible class of the Presbyterian Sunday school met Tuesday evening in the home of Harry Webb. The devotionals were in charge of John McCullough. Regular business was transacted. Contest prize was awarded to John McCullough. Lunch was served by Mrs. Webb assisted by her son, Miss Ida Madison.

Orville Madison who has been confined to his bed the past month is able to be out.

Mrs. Charles Donaldson of Wellsville, spent Wednesday with her sister, Miss Ida Madison.

Teaching Standards Regional Meet Topic

School Instructors Should Have Special Qualifications, State Board Members Point Out.

Teaching standards and requirements and school ratings were the principal subjects discussed at the regional educational conference yesterday afternoon at Waddington farm, near Wheeling.

Members of the state board of education, pointed out the necessity of employment of instructors who have special qualifications. In addition he urged the superintendents to have all high schools in their respective counties or districts apply for membership in the Northwestern association as soon as possible, if they were not already members.

At the morning session in the Ohio county circuit court room it was agreed that the teacher with a normal school certificate was better qualified to instruct in the grades. Discussion on the matter of principals acting

both as superintendent and instructor, was another feature of this session.

Statistics of various phases of school activities were presented by the state educational representatives. Records of general effectiveness showed that Ohio county led the state during 1927.

Those present included: Hancock county: H. O. Miller, A. D. Osborne; Wetzel county: Leslie Garrett, John H. Gorby; Brooke county: C. D. Jacobs, C. L. McMahon, Glen Rutan; Ohio county: J. S. Bonar, J. S. Lazear, S. S. Jacob, H. A. Smith, and C. G. Montgomery; Marshall county: Wilford McCutcheon, J. S. Welch and B. T. Tustin and Melville Stewart, state representatives.

SUNDAY SCHOOL PICNIC JULY 24

Annual picnic of the Sunday school of the First Presbyterian church will be held on Tuesday, July 24, at Maple Rest camp, Lincoln Highway, two miles back of Chester.

Program of athletic events will be given during the afternoon. Basket dinner will be served.

BOOST RAIL VALUATIONS

State Board Proposes Increase in Annual Assessments.

Tentative increases in the annual assessments are proposed by the state board of public works at Charleston. The largest increase, it was stated, has been assigned to the Chesapeake & Ohio Railroad company. The new assessment is \$63,750,000 as compared with \$54,075,000 last year.

Three other roads have been assessed, tentatively, as follows:

Norfolk & Western, \$56,700,000 as against \$50,900,000 last year, an increase of \$5,800,000.

Virginia railroad, \$20,000,000 as against \$16,000,000 last year, an increase of \$4,000,000.

Baltimore & Ohio, \$8,500,000 as against \$8,300,000 last year, an increase of \$200,000.

Reports indicated that opposition within the board of public works to the proposed assessment increases is led by State Treasurer Johnson and School Superintendent Ford, Secretary of State Sharp is also said to favor a lower rate of assessment than those tentatively agreed upon.

Members who are described as favoring the increases are Governor Gore, State Auditor Mallison, Attorney General Lee and Commissioner of Agriculture Smith.

PLAN AUTO TRIP TO HEINZ PLANT

Directors of the Chester Board of Trade last night accepted an invitation extended by the H. J. Heinz company of Pittsburgh, Pa., to inspect their plant next Wednesday afternoon and night.

Directors and their families and others who plan to make the trip will meet at the city hall at 1 o'clock. Transportation arrangements will be in charge of George T. Richmond.

Dinner will be served by company officials. Directors were guests at a luncheon served at the close of the meeting by the business men's division of the trade body.

ISAAC S. CASTO, AGED 71, DIES

"To Be Continued In Our Next"

Just paying for an article and carrying it home, doesn't complete the transaction in our store. An invisible part of your purchase remains to be delivered—Satisfaction. The story of the sale is "continued in our next." Six months—a year later, perhaps—you will know whether Satisfaction or Discontent, was the ending.

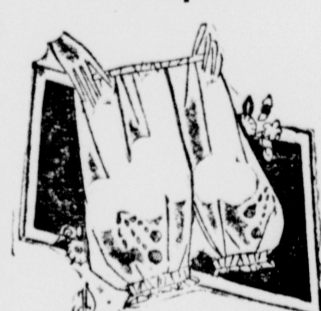

That is why we cannot afford to sell "seconds," imperfect goods, or bankrupt stocks. Articles that are cheapened and weakened by substitution, hid away where the buyer cannot detect them, wouldn't make a very good "ending." Quality must have its price—and Quality alone determines whether that price is economical.

Twenty-six years ago we began business in one tiny store. Today we have over 1,000, scattered from coast to coast. Apparently our customers have been satisfied with the "ending" of our merchandise story.

LOEWENSTEIN'S BODY CLAIMED BY HIS WIDOW

Belgian Financier's
Kin Identify
Floater.

TAG ON WATCH

Fall Into Channel From
Airplane Fractures
Feet.

CALLIS, France, July 20.—Madame Alfred Loewenstein, widow of the famous Belgian financier who plunged to his death from an airplane over English Channel on July 4, arrived today and immediately identified a body picked up in the channel as that of her husband. She was accompanied by her brother, Vonvert, a lawyer, and Lieut. Misonne.

Identification was made through a dental plate in the mouth and an identity tag attached to the wrist watch.

Medical examination revealed that the impact of the fall had broken both feet, the right ankle and the left thigh.

The body will be taken to Brussels for funeral services and burial following an autopsy which probably will be held late today.

PARIS, July 20.—French and Belgian authorities were faced today with the problem of ascertaining whether Capt. Alfred Loewenstein, Belgian financier, fell out of his plane accidentally while crossing the English channel on July 4, or committed suicide.

The finding of the late financier's body by the crew of a Boulogne fishing boat yesterday put an end to all rumors that Loewenstein's disappearance was only a hoax to make people think he was dead.

His body was found floating face downward about ten miles off Cape Griz Nez and was identified by a wrist watch on which his name was engraved. The body had begun to decompose and was scarcely recognizable.

The body was taken to the Boulogne morgue from which it was shipped to Calais after it had been examined. When picked up it was covered only by underwear, one shoe and silk socks.

HINT SHUT-OFF OF GAS SUPPLY

Three Ohio Towns
Face Threatened
Fuel Ban.

COLUMBUS, O., July 20.—Three Ohio towns—Payne, Antwerp and Paulding, Paulding county—will be without gas after July 22 unless the Schenck Leadford Oil and Gas company, which serves the towns with fuel, and the "64" gas company, from which the former concern buys its gas, reach an agreement, it was learned here today from the public utilities commission.

The "64" gas company has served notice that it will shut off the Schenck Leadford Oil and Gas company's supply unless its bills are paid before next Saturday. The Schenck Leadford company was notified by the public utilities commission to immediately confer with its supplying company and reach an agreement and not cause the municipalities to suffer any inconveniences.

CARD OF THANKS.
We wish to express our sincere thanks to our many friends and neighbors for their kindness and sympathy during the illness and death of our son and grandson, William Earl Casto.

Especially do we thank Rev. McQueen, Rev. Baker, the Loyal Sons & Daughters class and the Cradle Roll of the First Church of Christ, D. of A. No. 4, All American Club, Edwin M. IN MEMORIAM.
In loving memory of our dear one, Annie L. Baxter, who died one year ago today, July 20th, 1928.

A precious one from us has gone,
A voice we loved is stilled,
A place is vacant in our home
Which never can be filled.
Oh, how we miss her cheery smile,
Her heart was of purest gold,
She suffered so bravely with never a frown.

But we will be united some day,
Where suffering and sorrow will not be found.

Sadly missed by husband, daughter,
sister and grandson.

HOOVER BACK IN CALIFORNIA ON SAD MISSION

G. O. P. Nominee Given Quiet Greeting at Oakland.

SON JOINS PARTY

Welcome Postponed by Funeral of Father-in-law.

OAKLAND, Cal., July 20.—Herbert Hoover was given a quiet greeting here this morning when he looked upon his first California crowd since becoming the Republican nominee for president. There were no cheers and the nominee made no remarks.

Allan Hoover, son of the nominee, joined his parents here. He was given a big motherly kiss and hug by Mrs. Hoover.

Hoover was joined by a small group of his boyhood friends at Benicia. They included T. C. Gregory, regent of Stanford university; Milton Esberg, wealthy tobacco man, and Mark Regan, all of San Francisco, and all of whom went to school with Hoover.

Henry Obsequies Today.

ABOARD HOOVER TRAIN, SACRAMENTO, Calif., July 20.—Herbert Hoover, the first Californian ever nominated for the presidency, returned to his home state today on a mission of sorrow and with all "welcome home" festivities postponed until after the funeral of his father-in-law, Charles D. Henry.

The Henry obsequies will be held at 2 o'clock this afternoon in the chapel of the Leland Stanford university, which both Mr. and Mrs. Hoover attended years ago.

The Hoover train swinging down out of the Sierra Nevada early this morning past the famous California orchard country was running far ahead of its original schedule in order to get the Republican nominee and his wife to their Palo Alto home in time to attend the funeral.

All receptions were ordered abandoned including a great welcome home celebration in San Francisco.

His train was routed from Oakland via the Dumbarton bridge direct to Palo Alto where it was due at 9:45 this morning, thus avoiding a ferry-boat ride across San Francisco bay and all stops in that city.

Mrs. Hoover in Seclusion.

Despite the cloud cast upon his homecoming by the death of his father-in-law, Hoover was elated at returning to his home state. He crossed the California state line shortly before last midnight at Calaveras and he immediately expressed his gratitude being "home." He had sat up in his private car for the event. "Every Californian crosses the state line with gratitude that God made him a home state," said Hoover. "I return this time with a deep sense of responsibility that I may add to her distinction in that task for which she has presented me to the nation."

"I look forward to being able soon to express my thanks for this confidence."

Mrs. Hoover remained in strict seclusion aboard the train. Her sorrow at the loss of her father was increased by the fact that she was prevented from being with him in his last days. She will continue in mourning at the Hoover home probably until her distinguished husband is notified formally, on August 11, that he has been nominated for president by the Republican party.

Sees Northwestern Sweep.

Hoover came back to his home state for the first time since he was nominated and for the first time in a year, convinced that he will win the vast stretch of states across the northern tier of country from Wisconsin and Illinois to the Pacific coast. As his train rolled over the Southern Pacific lines from Ogden, Utah, he was told he would carry two so-called "doubtful" states—Montana and Nevada, thus making a clean sweep of the northwestern country.

One thing this transcontinental trip has done for Hoover, aside from giving him the opportunity to meet sectional leaders and study sectional problems, was to make a "candidate" out of him.

In Chicago, he posed for a photograph with a railroad engineer; in Iowa, he voluntarily began shaking hands with rear platform crowds; in Nebraska, he addressed a crowd as "My fellow citizens." In Wyoming, he kissed a baby and in Nevada, he debated economic conditions with a heckler. On the last two days of the trip, the nominee voluntarily visited with the newspapermen on his train. On the first day he began to relax; on the second he entertained them for an hour with stories of his youth, touching on his college days, fishing trips, youthful jobs and mining experiences. He demonstrated to the newspapermen that he can be an active campaigner between now and next November.

Hoover will remain in Palo Alto, until August 15 or 16, except for a possible fishing trip, and then leave for a two days' visit to Los Angeles, according to his present plans before returning east. On his way back, he will stop off in Iowa for three days in Cedar Rapids and Westbranch. He expects to reach Washington about August 25 and remain there throughout the campaign.

LIGHTNING KILLS GIRL PICNICKER

NILES, O., July 20.—The body of Eunice Sheldon, 10, today was taken to her home in Youngstown. The child was killed when lightning struck a tree near a one-room cottage on the banks of Meander lake, near here, where several boys and girls of a Sunday school class of the Church of Nazarene, Youngstown, took shelter during an electrical rain storm yesterday.

ALL BIG POWERS TO OUTLAW WAR

With Japan's acceptance today of the proposed American multilateral treaty to outlaw war, all the big powers have now signified their willingness to sign.

The nations that have accepted the treaty are Great Britain, France, Italy, Japan, Belgium, Germany and Poland. Britain accepted the pact in behalf of four commonwealths of the British empire—India, Australia, Canada and the Irish Free State, having their own diplomatic representatives at Washington, have accepted independently.

Czechoslovakia gave notice of acceptance, announcing that a note probably would be handed to the American minister at Prague today.

Advises from Moscow indicated that Soviet Russia would sign the treaty.

Negotiations already are under way which are expected to lead to acceptance by Spain.

Call Sewer Bids

(Continued from Page One.)

ers have agreed to close. Inasmuch as the alley has never been deeded to the city, action on the part of council will not be necessary.

The seven-foot wire mesh fence for the field, purchased last year, will be erected as soon as it is delivered, Daugherty said. Police will be asked to ban the parking of automobiles along West Fourth street extension during football games.

Daugherty recommended that the frame grand stand at the southeast corner of the lot be razed and temporary bleacher seats erected on the 40x110 foot tract recently deeded to the board by the Standard Oil company. Action on this proposal will be taken at a later meeting.

Plan Temporary Field.

If the weather this fall is wet, the new football field now under construction will not be available for games, Daugherty said. The tract will be seeded when the grading is completed, and to stage games on this site when the ground is soft would be ruinous, Daugherty said. Arrangements will be made for a temporary playing zone on the east side of the field for next season's games.

Peter Milliron, who is now installing the lateral sewers across the main field, is expected to complete this work next week. These sewers are 200 feet in length and 25 in. diameter. The main sewer, for which bids will be asked, will be 15 and 18 inch in diameter and will connect with the proposed culvert under the railroad track.

Purpose of the proposed manhole which will be connected with the culvert will be to flood the field in an even manner when the river rises, thereby averting damage from a sudden rush of water over the Fourth street extension. When the river recedes, the water in the field would fall gradually and be drained from the sewer under the railroad track.

City Turns Down Proposal.

In commenting upon council's refusal to join in the cost of constructing the culvert under the railroad tracks, Daugherty said that the city had lost a "golden opportunity" to provide for drainage from West Eighth street.

Eventually the city will be required to build a sewer from the West Fourth street extension into Carpenter's run, he declared, which according to figures of the engineer will cost many times the \$2,500 which the municipality would have been required to pay if it joined in the school board project. The board had agreed to permit the city to construct a sewer across the corner of the athletic field to the culvert if the offer were accepted.

When the culvert under the tracks is completed the drain under the West Fourth street extension will be sealed to prevent water from the city's sewer line entering the field. The expense of keeping open the winding ditch from the end of the West Eighth street sewer to Carpenter's run has been costly because of the low fill. This expense, it is claimed, would have been eliminated had the city accepted the school board's offer.

Engineer's Statement.

A statement in which the engineering features for the improvements were discussed was submitted by Daugherty. The statement is in answer to the arguments that the field should be filled before any attempt is made to provide a drainage system. His statement, accepted by the board, follows:

"The main area of the present playing field is 18 feet above level in the Ohio river, and 15 feet below flood level, which reaches a 33-foot stage. The field is completely surrounded by embankments or hills, the railroad being 13 feet above the field level, and Fourth street extension being at present six feet above field level at the angle point. But the final city grade determined for this point in the road will be eight feet higher than the present road elevation, making the roadway 14 feet above the field. The present drainage is taken off the surface of the field by a 24-inch pipe under Fourth street emptying into Carpenter's run. The recent flooding of the field has been caused partly by clogging of this pipe and partly by city storm drainage backing up into the field, due to material deposited in the open ditch east of the roadway.

If filling were resorted to as a means of providing surface drainage, depth of 13 feet of fill over the entire field would be needed to give a natural flow over the railroad. This would require 7,000 cubic yards per foot depth for the bottom or first five feet of fill and 10,000 cubic yards per foot of depth for the next five feet, making a total of 100,000 cubic yards of coarse material. At least one foot depth of top soil would be necessary, and this would require 10,000 cubic yards of selected material to be placed and graded. Three thousand carloads of fill is the total that would have to be made. Even if it were possible to obtain this amount, the cost of handling and grading it would be prohibitive. The settlement would be a long drawn out process, and the surface would be too irregular for use without expensive maintenance.

Soil Provides Rapid Percolation.

Then, after the fill was made and settled and grass sown, the track, walkways and parallel playing fields,

would make the installation of a special surface drainage system an absolute necessity, to take care of ordinary rains satisfactorily, and the field would still be flooded by the river at maximum stages. Some provision would also have to be made to carry the water across the railroad tracks.

The soil of the present playing field is an ideal mixture of sand, loam and clay, which provides rapid percolation, and will support a sod of grass with very little fertilization. The surface is practically level, therefore requiring a minimum of grading to form the raised center of the new parallel fields. The amphitheatre effect is retained by having high ground completely surrounding the playing field. The surface drainage system requirements are identical either with or without the fill, and a culvert under the railroad will furnish a sure and satisfactory outlet. With these facts known, and the prohibitive cost of filling acknowledged, it was decided to maintain the present level of the field and take the necessary precautions for secure protection against any flood which does not rise above the railroad. This has been accomplished by a specially designed manhole at the upper end of the culvert, in which all lines are provided with tide flaps, and an overflow device which will automatically operate in case of emergency. This manhole also permits sub-irrigation of the field by retaining an underground reservoir of water held in the subdrainage system, thereby preventing the burning out of grass during dry weather without resort to sprinkling.

Right of Way for Culvert.

A right of way for a culvert under the railroad has been granted to the board of education, and their engineer has advised that council be offered an opportunity to save the troublesome problem of handling the city storm drainage problem in the West End by extending the present drain in Fourth street extension across the southeast corner of Patterson Field to the new culvert. This route would be only one third as long as the Carpenter's Run route and would cost the city only about one-fifth of the ultimate cost of enclosing the present course of the drainage. The board of education has submitted to council alternate agreements which grant an easement for the city storm drain across board property and through the culvert direct to the river. Copies of these agreements are on file in the board of education office. The estimated cost of the culvert and special manhole is low because although the pipe will be of heavy corrugated iron, it will be driven under the railroad by powerful jacks, without interfering with traffic. It will be seven feet below the level of the playing field, at the foot of the railroad embankment, thereby providing good grades on both the field drains, and the city storm drain line leading to it.

The Standard Oil company has deeded the board of education a strip of land 40 feet wide along the west side of the Patterson property for the concrete stand. This makes the whole area of the flat available for the two parallel fields now planned. Of these, the west, or main field, is now under construction. The lateral subdrains are being placed so that final grading can be done and grass planted ready for playing this fall. Putting the subdrains in now means that the field will never have to be torn up after it is once finished. The subdrains will eventually be used as part of the surface drainage system when the main drain is installed, but the connections will all be outside the playing surface. There will be no danger of clogging the pipes, because a foot of cinders is placed around and above them at all points when the joints are not cemented tight. And all the surface drainage will finally be collected in the cinder tracks and walkways and carried off by a complete system of piping which will act as a unit.

Complete One Unit at Time.

Each step in the construction work on the fields is being carried out according to a definite plan which will complete one unit at a time and avoid any unnecessary expenditure. This year's expenditure will provide main drain. A copy of the schedule, giving estimated costs of the future units, has been submitted to the board.

Present excavation for subdrains averages about four feet, in good digging. Soil is fairly uniform and the ground water table is about three feet below surface.

Average cut and fill for surface grading will be about six inches, and excess material will be used to cover the surface of the present dumps.

With weather conditions at all favorable the main field should be seeded before the middle of August, and a fair stand of grass ready for fall games. The practice field will be used almost exclusively this year to protect the new sod from damage. Games will be played on the practice field if necessary, because any damage done there can be easily remedied.

It is recommended that the present grand stand be removed, repaired, and set up temporarily on the site of the future concrete stand. This will afford seating space for both football and baseball games. Cinders will be placed on the approximate location of the track and walkways to keep spectators out of the mud.

The work on grading and sub drains is being rushed as fast as possible under the circumstances. It is believed possible to have this contract completed, and the main drain and culvert in operation, within 30 days, if the latter two items are authorized at an early date.

36 PLANES HOP FOR KING'S CUP

HENDON AIRDRONE, England, July 20.—Thirty-six airplanes, including one piloted by a woman, hopped off here today on the first stage of the annual 1,000-mile race round Britain for the king's cup. Today's leg of the journey was to Glasgow, Scotland, via Norwich, Birmingham, Leeds and Newcastle.

The fliers will spend the night at Glasgow, leaving tomorrow morning on the return journey by way of Blackpool, Manchester, Bristol, Southampton and Lympne to Brooklands race track on the outskirts of London.

Governor, if Elected, Will Eliminate Overlapping. TELLS TYDINGS

Nominee Will Stress Reorganization at His Notification.

ALBANY, N. Y., July 20.—Governor Al Smith today indicated he would announce within 24 hours the definite date for the ceremony at which he will be formally notified of the presidential nomination.

Unless last minute changes are decided upon by the governor, the ceremony will take place at night on the steps of the state capitol and probably will be held a week or 10 days after that of his Republican opponent, Herbert Hoover, which is scheduled for August 11.

SMITH URGES OVERHAULING OF GOVERNMENT

Governor, if Elected, Will Eliminate Overlapping.

TELLS TYDINGS

Nominee Will Stress Reorganization at His Notification.

ALBANY, N. Y., July 20.—Governor Al Smith today indicated he would announce within 24 hours the definite date for the ceremony at which he will be formally notified of the presidential nomination.

Unless last minute changes are decided upon by the governor, the ceremony will take place at night on the steps of the state capitol and probably will be held a week or 10 days after that of his Republican opponent, Herbert Hoover, which is scheduled for August 11.

The governor is understood to have decided the date for the notification but he is waiting to make certain that nationwide radio hookup can be arranged for the time he has in mind.

ALBANY, N. Y., July 20.—A complete overhauling of the machinery of the federal government and the consolidation and elimination of overlapping and useless bureaus, boards and commissions in the interest of economy and efficiency is planned by Governor Al Smith in the event of his election to presidency.

This was revealed by the governor to United States senators Millard E. Tydings of Maryland and Harry B. Hawes of Missouri, regent guests at the executive mansion.

The governor impressed upon Tydings and Hawes that he proposed to conduct a "constructive" campaign and not one of criticism.

BOMB IN AUTO KILLS DRIVER

Find Second Explosive in Illinois Murder Plot.

ROCKFORD, Ill., July 20.—A second bomb was found here today planted in another automobile in the garage from which Vernon Plager drove his own car yesterday a few minutes before a terrific blast wrecked the machine and literally tore him to pieces.

Discovery of the second bomb proved to police that Plager had been killed by a similar device and set at rest a vague theory the explosion resulted from gasoline.

It gave them evidence upon which to question Paul Reed, 30, bachelor and admirer of Plager's wife, Mrs. Iva Cook Plager. In a dying statement Plager named Reed as the one who sought his death.

DR. JAMES B. MURPHY, of the Rockefeller institute, tells the London cancer conference of a "growth substance" in nature that causes tumors to grow.

This substance, injected in chickens, has caused growth of tumors 90 times in 100.

It is hoped that where there is a growth substance there will also be found a growth PREVENTING substance.

Once discovered, that would conquer or check cancer growth.

GRADUALLY science draws closer to the cancer mystery. The healing of a wound is like a cancer growth, except that it stops when the healing work is done. The experiments with chickens are important, because, as explained to this writer at the Rockefeller institute, the production of cancerous growth within the body of a chicken is so difficult as to be almost impossible. In only one case had it been possible to create cancer in a hen. There were scores of rats and mice, each with cancers artificially produced, bigger than the animal's bodies.

The chickens may yield the growth prevention substance.

OPEN 10-DAY CAMP MEETING

Large Crowd Attends Dixonville Services Last Night.

Free Methodist camp meeting opened last night in the Dixonville road, with a large crowd in attendance.

The Rev. A. L. Whitcomb, Long Beach, Cal., general conference evangelist, spoke on "Let Not Your Heart be Troubled." A half-hour song service preceded the preaching.

The Rev. Mr. Whitcomb preached again this morning and will also conduct tonight's service. Visiting pastors of the dozen or more cooperating churches will preach each afternoon. Sunday's services will be featured by a missionary rally, which will be conducted at 2:30 p. m. under the auspices of the Women's Missionary society. Miss Ruth Moreland, Pittsburg, on a furlough to the United States from South Africa, will be the speaker. The children's services will be held at 1:30 o'clock.

About 75 families are encamped on the grounds.

REPORTS FROM STOCK MARKETS

NEW YORK, July 20.—After opening generally lower today, the stock market recovered somewhat on fairly good buying that followed in the next hour or two. Radio corporation, which opened 2 1/8 lower at 157 1/8, came back to 163 1/4. General Motors which opened 2 5/8 down at 185 recovered to 187 3/8, and similar recoveries were made in other issues.

All of the early losses were not recovered in early trading, however, the trend at this point being irregular. U. S. Steel was up 1/8 at 138 1/8. American Can down 3/8 at 83 7/8. Montgomery Ward up 1/2 at 163 3/4. Sears Roebuck up 1/8 at 186 3/8. Victor Talking Machine off 1/2 at 92. Wright Aero up 3/4 at 147 1/4. Curtiss Aeroplane down 2 1/2 at 101 1/2 and Chrysler up 1 1/2 at 73 5/8.

Selling came into the market at the outset due to the disappointment in speculative quarters over the reduction of only \$48,284,000 in brokers loans during the week ended July 18. Inasmuch as Wall Street had been expecting a decrease in excess of \$100,000,000 this relatively small decline caused a general recession at the opening. However, buying quickly set in one the decline and an upturn in prices resulted.

All money 5 per cent.

DEATH ROLL

Long Infant.

Funeral services for Beverly Virginia, 4-month-old daughter of Mr. and Mrs. Dina Long, who died yesterday, were held this afternoon in the home in Grant street, Newell, in charge of the Rev. W. E. Dean, pastor of the Newell Methodist Episcopal church. Burial was made in Locust Hill cemetery.

OBREGON DEATH SUSPECT FACES EARLY TRIAL

Assassin and Five Others Likely to Face Guns.

CRIME ADMITTED

Due Process of Law Promised by Mexico.

MEXICO CITY, July 20.—Approximately half a dozen persons may pay the death penalty for the assassination of President-elect Alvaro Obregon by Jose de Leon Toral, a young art student.

Announcement was made at police headquarters today that Toral and his accomplices will be placed on trial at an early date. A verdict of guilty will entail the death penalty, probably executed by a firing squad.

Officials made it plain that the trial will be conducted with due process of law so that there can be no outside criticism of the government's actions. Belief is growing that the conflict existing between the church and state may enter a more violent phase as a result of the assassination. Deep feeling has been stirred in religious circles by the charges of President Calles and Chief of Police Zertuche that the crime involved "direct clerical action."

While the public remains tranquil, with soldiers on guard, there is apprehension in some quarters that violence may be attempted.

Boat Sinks; Two Die

Trapped in Craft.

A short time later other coast guard craft, cruising in the vicinity, reached the scene of the disaster and picked up five survivors. All of them clinging to a life raft. The Culbertson, according to reports, did not stop and apparently was unaware of the crash. He is believed to have been bound for Philadelphia.

Five boats and an airplane were patrolling the scene of the crash at noon, attempting to locate the exact point where the CG-113 sank. The CG-113 has figured in several other collisions and on each occasion has been repaired and sent out again. A government investigation of today's disaster is expected to get under way immediately.

NEW YORK, July 20.—The coast guard patrol boat CG-113 of the Cape May coast guard unit today collided with the steamship Culbertson off Cape May, and two coast guardmen were reported missing, according to information received at coast guard headquarters here.

The Culbertson rammed the patrol boat amidship on the port side during a heavy fog.

Local coast guard officials have started an investigation. So far as was learned here the Culbertson was not damaged.

The CG-113 carried a crew of about eight men.

COAL MINERS' WAGE PARLEY IN OHIO HIT

Operators Refuse to Meet Union to Negotiate Pact.

STRIKE NEAR END

District Heads Seek New Scales Under Policy Change.

COLUMBUS, O., July 20.—As reports from all over Ohio forecast the end of the 15-month-old strike, indications today were that an agreement between the United Mine Workers of America and the Buckeye state coal operators over the wage scale controversy will never be reached and that the Ohio coal fields will regain their pre-strike numerical status in a short time.

Following a conference of Ohio union executives yesterday the mine workers' organization issued invitations to the Ohio coal operators to attend a meeting at Columbus July 24 to fix a satisfactory wage scale.

Officials of the larger coal companies flatly refused to consider the union officers' request and said they were satisfied with conditions in the mine fields on the open-shop basis.

S. H. Robbins, Cleveland, president of the Ohio Coal Operators' association and director of the Y. & O. Coal company, in a terse and pointed statement said, "We will have no further dealings with the United Mine Workers of America."

Officials of the Sunday Creek Coal company, at one time the largest producer in Ohio, and of the Sussex Coal company said they would

MISS SADIE McMAHON BECOMES BRIDE OF LORAIN COLEMAN OF LISBON

Announcement is Made of Ceremony Solemnized on July 16.

Announcement was made today of the marriage, on July 16, in the parsonage of the Boyce Methodist Episcopal church, of Miss Sadie McMahon, daughter of Mr. and Mrs. George McMahon of Valley avenue, and Lorain Coleman, son of Mr. and Mrs. D. L. Coleman of Lisbon. The Rev. J. Lloyd McQueen, pastor of the church, officiated. The attendants were Miss Lucille Salt and Frederick White.

The bride, who previous to her marriage was employed by the D. E. McNeil Pottery company, was gown in white satin, trimmed with rhinestones. She wore a picture hat and carried bride's roses. The maid of honor wore shell pink satin, trimmed with seed pearls. Her hat matched her gown and she carried pink rosebuds.

A wedding dinner was served in the home of the bride's sister, Mrs. Fred Parker, Michigan avenue. Places were arranged for 25.

Mr. and Mrs. Coleman left for a honeymoon in eastern states, after which they will be at home to friends in Erie street. The bridegroom is employed by the Babcock-Wilcox company.

Out-of-town guests were Miss Inez Watson of Industry, Miss Sara Stockwell and Mrs. Ross Swogger of New Brighton.

Past Councilors' Picnic July 25.

The Past Councilors' association of the Daughters of America will hold a picnic at Rock Springs park on Wednesday, July 25.

Willing Workers Picnic Yesterday.

Forty-five members of the Willing Workers society of St. John's Lutheran church picnicked at Thompson park yesterday afternoon and night. A guessing contest was won by Mrs. Carl Dettke; balloon race by Mrs. Charles Rinestein; egg race by Mrs. Frank Shone, and drawing contest by Mesdames J. G. Reinartz and John Auberger.

Dinner was served at 6 o'clock by Mesdames Clarence Peddicord, Frank Daxton and Carrie Grimm.

Mrs. Clara Mitchell of Beaver and Mrs. G. Y. Travis were guests.

Next meeting of the society will be held Thursday, August 2, in the home of Mrs. George Woessner, Burford street.

Miss McCain Entertains.

Officers and the alumni of East Liverpool and Wellsville Christian Endeavor Unions were entertained last night in the home of Miss Ethel McCain in Jefferson street. Russell Saurte presided during the short business session. Plans were made for a picnic to be held in the near future, the date to be announced later.

Refreshments were served by the hostess.

Hostess to Ideal Social Club.

Twelve members of the Ideal Social club were entertained last evening in the home of Mrs. Allan Brown in Calcutta. A guessing contest was won by Mrs. Earl Smith. Refreshments were served by the hostess, assisted by her daughter, Miss Evelyn Brown, and Mesdames William Marshall and Earl Smith.

Mrs. William Marshall was a guest. A coverdish party will be held by the club members on August 16 in the home of Mrs. Ella Thompson in Smiths Ferry, Pa.

Mrs. Margaret Rollins Hostess.

Members of the Merry Workers' class of the First Baptist church were entertained last night in the home of Mrs. Margaret Rollins in Franklin street. The social hours were spent with music and games. Refreshments were served by the hostess, assisted by her mother, Mrs. R. T. Hall, and aunt, Mrs. Bertie Hall.

Mesdames Ruth Wyatt, Margaret Rollins, Evelyn Jones, Grace Shenkle, Bertie Hall, Sarah Quinn; Mr. and Mrs. R. T. Hall, Misses Marie Hall, Georgiana Jones, Gladys Hallett, Mildred Farley, Mary Lowers, Bessie Sayre, Ocy and Ava Willard, Betsy Tucker and Ruth Hall were guests.

The teacher of the class is Mrs. Sarah Quinn.

Miss Helen Allison Entertained.

Miss Helen Allison entertained a group of friends yesterday afternoon in her home in Virginia avenue, Chester, at bridge. Four tables were in play. Trophies were awarded Miss

Sara Heddlestop and Mrs. H. W. B. Spore.

Refreshments were served by the hostess, assisted by her mother, Mrs. O. O. Allison, and sister, Miss Eunice. Summer flowers were used in the appointments and the decorations.

Miss Helen Curtis of Wheeling, W. Va., was a guest.

Good Wholesome Ice Cream—Duff's, 6th street.

35 INDICTED IN MINE FIGHT

One Woman Among Persons Named in Athens County.

ATHENS, July 20.—Thirty-five persons today had been identified for rioting by the Athens county grand jury as the results of recent mine disturbances in this county.

Included in this number was one woman, Alma Orr.

Seventeen other persons were also indicted by the grand jury for various other offenses.

In returning the indictments against the alleged rioters, assault and battery, perjury, rioting or making menacing threats were charged.

Three union pickets, Ray McLaughlin, Ted Seidley and Frank Mecum, were also indicted by the grand jury charged with "beating up" 76-year-old James Lane, fire boss in a non-union mine near Gloucester, Lane in preferring the charges said that the three men were in a party of union pickets which beat and kicked him.

TEMPLARS END DETROIT MEET

Milwaukee's Crack Drill Team Wins Gold Circle.

DETROIT, July 20.—Two hundred Knights Templar, their ladies and other visitors were home bound today after closing their thirty-seventh triennial convocation last night.

Milwaukee's crack drill team, belonging to Ivanhoe commandery No. 24, takes home the coveted gold circle awarded to the team making the best showing in the competitive drills.

The Milwaukee team won first honors with a score of 97.50 out of a possible hundred. California command

ery No. 1 of San Francisco, winner three years ago, took second honors. Third and fourth places, respectively, went to Golden West commandery No. 43 of Los Angeles and Tanager No. 22 of Dallas, Texas.

\$5,500 REWARD FOR LOST GIRL

Police Search for Ruby Vian, 15, of Lorain.

LORAIN, O., July 20.—While police in practically every city of the United States were today searching for Miss Ruby Vian, 15, of Lorain, missing since July 11 when she disappeared in Jersey City, N. J., while on a shopping trip, a reward of \$5,500 was offered for the girl's recovery.

According to N. M. Vian, his daughter left Lorain June 28, for a month's

visit with her cousin, Dr. James E. Kelley.

Vian believes his daughter was kidnapped. She did not run away, he declared for she was an only child and was very happy at home.

Dr. Kelley and Vian posted the reward.

The Vians came here about three months ago from Ashtabula, O., and Vian is a merchant here.

FIND PRISONER IN WRONG CELL

OSHING, N. Y., July 20.—The search for Harold Fullam, 20, a New Yorker, who was reported O. W. O. L. at Sing Sing prison here during the execution last night of Joseph Lefkowitz, 30, ended today with the finding of Fullam in the wrong cell.

Fullam, who is serving a 15 to 25-year sentence for manslaughter, was found by Warden Lewis E. Lawes and a squad of prison keepers after a search which lasted into the early hours of the morning. Warden Lawes offered the explanation that when the prisoners were returning to their cells last evening after a period of recreation Fullam accidentally walked into the wrong cell.

Owl Milk of Magnesia Tooth Paste

Milk of Magnesia tooth pastes have become very popular the last couple of years, mainly because of their ability to neutralize mouth acids. Owl Milk of Magnesia toothpaste has been exceedingly popular with our customers, not only for the ability to neutralize acid but for its absence of a druggy taste. Instead its flavor is very refreshing.

Turk Nash Defeats Chester

Second Win for Motors; Pollack Slab Victor.

JOHN FOWLER'S Turk Nash City league club is on even terms with Joe Dickey's Newell aggregation, with two wins apiece today as a result of the Motors' victory over Chester at Smith Field last night.

Paul Bennett, Wabash collegian, who pitched for Wellsville during the first half, and who became the property of the Chester club between halves, made his first start with Jack Vanaman's organization against the Motors.

He got away to a bad start, eight runs being scored off his delivery in the first two frames, but thereafter held the opposition scoreless.

Ray Pollock, Turk Nash southpaw, who has lost several tough decisions this year despite extraordinary performances on the slab, gave the Chester nine an even half dozen blows, virtually all of which were registered in the last three frames.

Four double plays were reeled off, each club executing a pair. George Cebula's throw from right field in the fourth, as a result of which Watson was tossed out at third, was another fielding feat.

Johnny Watson had a big day at the plate, the Turk Nash third sacker hitting safely three times in as many times up.

Jack Vanaman drove out two bingles in three attempts.

Godwin started the run making in the first inning with a hit through short and he swiped second. Sayres drew a walk and both moved up on a wild pitch. On Watson's rap to Kimble, Godwin scored, Watson was safe at first and Sayres at third. Watson stole second and both he and Sayres finished on McMath's single. McMath stole second and counted on Desler's single.

The Motors duplicated their four-run performance in the second inning to sew up the game. Teddy Hunselman opened the frame by slapping a three-bagger to right and completed the circuit on Pollock's drive to Springer at short. Springer's throw failed to get Hunselman at the plate. Godwin hit safely to left, putting Pollock on second and both advanced when Bennett heaved wildly to second. Sayres' two-bagger to left was good for two more runs while Watson's two-station clout scored Sayre.

And that ended Turk Nash's run making, although sufficient tangles had crossed the plate to make it tough for the home nine.

Chester broke through for a run in the third. Kimble was hit and was safe at second as Sayres' juggled Hunselman's throw. On Springer's drive to short and McMath's wild heave to the initial corner, Kimble tallied.

Final runs were scored in the seventh. Cox, George Cebula and J. Vanaman singled in succession, Cox scoring on Vanaman's hit. George Cebula reached the plate as McMath, Sayre and Desler put on a double play sketch on DeLong's grounder to short.

Bucs' Winning Streak Broken Up Seventh; By Robins, 3-0

Douglas McWeeny Hangs up His Eleventh Victory.

PITTSBURGH, Pa., July 20.—Pittsburgh's winning streak was snapped here yesterday when Uncle Bobby's revamped Robins broke through for a 3 to 0 win, with Douglas McWeeny hanging up his eleventh victory.

Pirates got nine hits off McWeeny but could not bunt any of them. Fred Fussell, Buc rookie, southpawed in great style, but his mates were unable to get any runs behind him.

Champs Win From K. T. K., 4-2

Timely Slugging Helps Easton Trim Potters.

"HAPPY" EASTON, Wellsville mound ace, last night displayed the form that made him one of the outstanding City league flingers of the first half as he turned back K. T. K., with the aid of some timely slugging by his mates, by a 4-2 count.

Easton kept the Kates' six hits well scattered and had plenty of control when he needed it.

"Lefty" Baker also turned in a six-hit game but he lacked the airtight support that Easton got and five of the half dozen blows he permitted were bunched in the fifth and sixth when the visitors scored all their runs.

Both clubs went scoreless for four frames during which time only three hits were made, all singles.

G. Wagner got on when his pop fly got away from Herbert in the fifth and Bloor sent him to second from where he counted on Hancock's single.

Three Wellsville runners made the circuit in the sixth. Rager led off with a sizzling single past the third bag, advanced another notch on Reese's sacrifice and counted on Talbot's single. Rager scampered over home plate and kept on going to first where he was delegated to run for Talbot. G. Wagner flew out to middle and Rager swiped second. Bloor clouted one into far left field for three sacks and Rager crossed the plate for the second time that inning. A few seconds later Bloor finished as Baker let loose a wild pitch.

The Kates scored a run in the sixth and another in the seventh when they threatened a rally. After Baker had been retired in the sixth, Coleman drew a walk and moved up on Andy O'Brosky's sacrifice hit, scoring on "Chuck" Kinsey's hard hit triple to right.

Kinsey, however, was stranded as Jack O'Brosky fanned.

With one gone in the seventh, T. O'Brosky singled but was forced out at second on Hall's rap to Reese. Witherow singled and "Cracker" Howell, batting for Baker, drove one down to Talbot on first that was too hot to handle. Hall scoring. Coleman ended the game with a fly to Herbert.

Tex Won't O.K. Gene's Air Trip

So Champ Must Find Some Other Way of Traveling.

By Davis J. Walsh.
NEW YORK, July 20.—It strikes me that among the several mistakes of Brother Tunney in connection with this Heene matter of next Thursday, the first has proved easily the foremost and worst. He shouldn't have selected Speculator, N. Y., as a training camp; he should have gone to Coney Island and lost himself in the mirror maze, thus making a real contest out of his attempt to reach New York in time for the fight.

Tunney frankly was in a jam this morning as he considered ways and means of getting here from an inaccessible spot like Speculator, 35 miles from the nearest railroad station, without losing the edge of his form, en route.

He had intended to fly to New York the morning of the fight. Rickard says he won't let him, even if he, Rickard, has to go to court for an injunction against the undertaking.

Brother Tunney probably doesn't realize it, but George is doing him a favor. An airplane flight of some 255 miles is not the way to establish a boxer's tranquility on the day of a contest.

He flew down from Stroudsburg to Philadelphia, a comparatively short distance, for the first Dempsey fight and arrived with an upset stomach, according to his own account of the incident. Rickard, of course, isn't worrying about the good man's stomach upon arrival. What worries him is the arrival itself.

The best plan to follow is one that McGovern will not consider for a moment. This would call for him to arrive here on Monday, in order to become acclimated, for New York is thousands of feet lower than Speculator in altitude and about 20 degrees

higher in temperature. He told Artie McGovern about his experience in arriving in the heat from Saratoga the night before the Gibbons fight, yet he is fixing to place himself in the same position this time.

CALL GUARDS TO BRIDGEPORT

Ohio Troops go to Blaine Mine After Outbreak.

BRIDGEPORT, O., July 20.—Ohio National guardsmen were recalled to Belmont county today after six weeks in which their services had not been required here.

Following a serious outbreak at the Blaine mine, near here yesterday when "strikers" attacked a number of non-union miners, the national guard was called in after the Belmont county officials proved unable to handle the situation.

The guardsmen today are in complete charge of the mine and its surrounding territory.

Tuesday, three men from Pennsylvania, now working in the Ohio coal fields, were seriously injured and another man was badly bruised in a "mob" outbreak.

Four men in jail. ST. CLAIRSVILLE, O., July 20.—Four men are being held in county jail here following an attack on Glen Robin miners at the Blaine mine, near here, Wednesday. The men are reportedly charged with assault with intent to kill. Prosecutor P. V. Waddell said that more arrests are expected to be made today and tomorrow.

WOMAN DIES, KIN HURT IN CRASH

FINDLAY, O., July 20.—Mrs. Ollie Evans, 60, Columbus, was dead here today and Mrs. W. E. Fries, Findlay, her daughter, was suffering serious injuries as the result of the automobile in which they were riding late yesterday, colliding with another motor car near here. Mrs. Fries was driving the machine at the time of the accident.

FIX NO LIMIT ON FUNDS FOR G. O. P. DRIVE

Wealthy Donors May Give as Much as They Wish.

\$3,000,000 CHEST

Democrats Expected to Spend More Than Republicans.

WASHINGTON, July 20.—The Republican campaign budget may be fixed when National Chairman Hubert Work and National Treasurer J. R. Nutt complete a study of departmental estimates today.

One thing was settled as a result of the preliminary discussions of the financial aspect of the campaign. There will be no limit on individual contributions.

In taking this attitude, Nutt declared there was no reason to suspect a donor simply because he was wealthy enough to give heavily to the campaign. He also emphasized the tremendous amount of money necessary to properly organize an election effort in a large and wealthy country.

Although \$3,000,000 has been tentatively fixed as the budget figure, it is probable that the budget will be left open to "supplemental estimates" later on. The 1924 campaign cost slightly more than \$3,000,000 and neither Work nor Nutt appeared to have hope of conducting the Hoover-Curtis fight for less money.

The Democratic national organization, Nutt predicted, will have a larger "war chest" than the Republicans. He referred to the Democratic refusal to fix a limit upon subscriptions and the financial power of the Democratic chairman, John J. Raskob.

17-YEAR-OLD LAD FRANCE'S CHAMP ORATOR

Rene Ponthieu Will
Enter International
Contest.

DOUAI NATIVE

Kentucky Boy Will
Represent United
States.

WASHINGTON, D. C., July 20—
Rene Ponthieu, 17-year-old student of
the Lycee Henri IV, Paris, has been
designated winner of the French na-
tional oratorical contest on "Consti-
tutional Government," and will rep-
resent his country in the third inter-
national oratorical contest in Wash-
ington on October 13, in competition
with student representatives of eight
other nations.

Ponthieu last week received his
bachelor's degree from his lycee. His
last term in high school has brought
him many honors in addition to the
championship of France in the ora-
torical contest. He has received first
prizes in English, Modern History and
Geography and a prize in French Lit-
erature. He expects to pursue his
studies with the intention of becom-
ing a priest.

The French winner is a native of
Douai, but lives at present in Paris
with his mother, his father, a mer-
chant, having been killed in the
World war. Ponthieu's brilliant high
school career followed a boyhood of
poverty and privations resulting from
his father's death and war conditions.

The French champion will compete
in the international finals with stu-
dent representatives of the United
States, Canada, England, Germany,
Argentina, Cuba, Mexico and Brazil,
the following having been already de-
signated in their respective national
finals:—James Rayburn Moore, Som-
erset, Kentucky, for the United
States; William Fox, Jr., of Lombard,
Ontario, for Canada; Efrain Grito
Rosado, of Mexico City, for Mexico;
and Dudley R. Barker, of Bourne-
mouth, for England.

The contest has been conducted in
secondary schools throughout France
under the direction of Dr. Andre Des-
clois, director-adjoint of international
relations at the Sorbonne, and under
the auspices of the French ministry
of education.

AMATEUR RODEO AT IDORA PARK

Boys and Girls Will Compete July 22-29.

A big thrill for the youngsters and extraordinary entertainment for adults is provided by the amateur rodeo races and rodeo which will be held at Idora park, Youngstown, July 22 to 29. This event takes place at 8 o'clock each night. It is open to boys and girls under 18 who own or ride ponies. Any boy or girl may enter by leaving his or her name at the park office between 7 and 9 each evening. Miss Freda Rupert, 11, champion girl rider, and Bud Moore, 14, champion jockey and rodeo star, are already entered. Carl "Ride 'Em" Ritchie, 18, horse breaker and bucking steer rider, will also provide plenty of thrills. There will be four pony races, a mule race, steer riding, wild pony riding and other features. For the winners each night there will be cash purses. Champion boy and girl riders in all events will compete for the Raymond Brenner trophies. The youngsters who enter will be given camp facilities and meals without cost. A military type camp will be provided.

SALES of The Sunday Press, with its new Gravure section, were much greater than we anticipated.

Although an extra number of copies were printed, they were all sold early in the day. Many people were disappointed and had to borrow their neighbor's Press.

We're sorry and hope it will not happen again. Next Sunday we'll print 60,000 extra copies. But, if you want to be real sure of getting one, call your newsdealer now and tell him to save yours.

BEBE DANIELS SCORES TRIUMPH

Give Bebe Daniels half a chance and the motion picture comedienne will wrench a chuckle out of the worst of the pessimists. The Paramount star wrenched a good many out of the audience that attended the first local showing of her latest picture, "The Fifty-Fifty Girl" at the Ceramic theatre last night and the wrenching process was far from being painful. The laughs came easily and in a flood.

The story is typically Bebe Daniels, who is never better than in a story wherein the beautiful American girl just cannot keep herself out of a jam. "The Fifty-Fifty Girl" deals with such a girl, one who is firm in the belief that she can make a man look silly under any set of circumstances.

Along comes James Hall, her leading man, and in the story, her partner in a mining venture, who accepts her proposal to take the part of the woman if she will run things like a man. She goes ahead and gets into the most amusing circumstances, at least as far as the audience is concerned. Bebe as the boss and cocky James Hall as the demure girl do make real comedy situations.

The strain is too great for the headstrong Miss Daniels, however, when she is chased by a gang of cut throats in the dark tunnels of the mine and,

after swallowing her pride on countless occasions, she finally squeals for help. Thanks to the strong right arm of Hall, the day is saved. And Bebe admits that the man really is some good after all.

Incidentally the cast is exceptionally good. James Hall gives a fine performance and William Austin, George Kotsenaros and Johnnie Morris are excellent in their respective roles. Clarence Badger directed.

COOGAN ENTHRALL IN "BUGLE CALL"

One of the most gripping and enthralling pictures of the season is "The Bugle Call," Jackie Coogan's new starring vehicle, now showing at the American theater. It is an Edward Sedgwick production for Metro-Goldwyn-Mayer, with Claire Windsor and Herbert Rawlinson heading an extremely capable cast. It is young Coogan's first nearly grown-up role, and is perhaps best described as a poignant human-interest story of the days just before the Civil war told against a background of battles between the cavalrymen and the red men.

Jackie plays the part of a bugle boy at a western cavalry camp who harbors a deep and loyal devotion to the memory of his dead mother. His father re-marries and commands the

boy to address his stepmother as mother, and to transfer his affections to her. The ensuing conflict, which ends happily in the boy's capitulation, provides many dramatic scenes with a climax that brought a burst of applause from yesterday's excited audience.

Claire Windsor as the stepmother and Herbert Rawlinson as the boy's father contribute vastly to the success of the film, which has been produced on an elaborate and impressive scale.

LEGLESS FLIER RESTS IN EAST

"Dinger" Daugherty
Unhurt in Three
Forced Landings.

PASSAIC, N. J., July 20.—Morris R.
"Dinger" Daugherty, legless and one-
armed airplane pilot flying from his
home in New Martinsville, W. Va., to
Roosevelt field, N. Y., was resting
here today after getting lost several
times and being forced down in Penn-
sylvania, New Jersey and on Long
Island. Miraculously he escaped in-
jury.

Daugherty who was flying a stand-
ard biplane with an OX5 motor, is
said to be planning a trans-Atlantic
flight to Rome in another plane. He
is assessor of Wetzel county, West
Virginia, and is being backed in his
flight by friends in that state. He
lost both legs and right arm in a rail-
road accident. When he arrived here
he had only \$1.

While on his flight to Roosevelt
field Daugherty became lost in the fog
and being nearly out of gas, landed
on a public golf course at Newark, N.
J. He struck two trees in landing,
and golf players scattered.

Fortunately one of the golf players
was Capt. Dennis Rooke of Australia,
who broke the world's record for a
flight in a light airplane when last
year he flew 7,000 miles from Croy-
don airdrome, England, to Calcutta, in
several stages. Rooke repaired the
motor of Daugherty's plane and the
crippled aviator started for Roosevelt
field.

Daugherty was forced down again
on Long Island, however. Somehow
he got over New Jersey again, and fi-
nally landed at the Passaic airport.

Y. M. C. A. POOL IS POPULAR

Men and Boys Seek
Relief From Heat
Wave.

Swimming is the principal activity
at the Y. M. C. A. during the heat
wave. Large numbers of men and
boys are using the pool daily. Classes
are provided for those unable to swim,
while life-saving and advanced swim-
ming are also taught as well.

Although gymnasium classes are dis-
continued during the summer, the
"gym" is being used for baseball
games by the boys' teams and a num-
ber of men play handball or take in-
dividual exercise.

Thirty-five boys were taken on a
hike to Beaver creek Wednesday by
Albert J. Manton.

Paul W. Goss, life-saving field rep-
resentative of the Red Cross, will be
in East Liverpool August 6 to 8, for
the purpose of demonstrating life-sav-
ing methods and instructing prospec-
tive life-savers and examiners.

STEAL DIAMONDS WORTH \$29,150

CLEVELAND, July 20.—Detectives here today continued their search for

two brickbattering thieves who stole nine diamond rings valued at \$29,150, from the display window of Webb C. Ball company, Euclid avenue and 12th street, one of the busiest intersections in Cleveland, at noon yesterday. The rings held 23 stones averaging more

than one carat each and were of rare workmanship, it was said.

After losing \$50,000 by a week's strike 1,500 tinplate workers in West Wales have returned to work unconditionally.

CREATE NEW MAIL SERVICE

Combine "Special Handling" and "Special Delivery."

A new mail service, a combination of the former "special handling" and "special delivery" services, has been created for parcel post. The combined service is cheaper than the sum of the cost of the two former services, Acting Postmaster John T. Wood said today.

The addressee must mark the package "special delivery" and put on special postage at these rates: 15 cents on matter weighing not more than two pounds; 25 cents on matter from two to 10 pounds; and 35 cents on matter weighing more than 10 pounds.

Matters desiring "special handling" service in transit without "special delivery" at the office of the addressee, may secure this service at the following rates: 10 cents on parcels weighing not more than two pounds; 15 cents on parcels weighing more than two pounds but not more than 10 pounds; and 20 cents on parcels weighing more than 10 pounds.

There is no "special delivery" now which does not carry with it also "special handling" in transit.

Homeworth

Jacob A. Stambaugh, 86, a civil war veteran and a former Homeworth resident, died Tuesday in his home in Alliance after a long illness. He was sergeant in charge of Kline cottage at the Soldiers' home in Sandusky for seven years, returning to Alliance four years ago. He was born at Randolph May 3, 1842.

He enlisted at Alliance April 18, 1862. At the expiration of the three months of the original enlistment he re-enlisted in Company 1, 19th Ohio volunteer infantry, and served for three years. He was taken prisoner at the battle of New Hope Church, Ga. and was taken to Andersonville prison where he was held nine months.

He was formerly ticket agent at Bayard. He was a member of the United Presbyterian church and of John C. Fremont post, Grand Army of the Republic. He leaves his widow, one son, Jacob V. Stambaugh of Argo, Ill., a half brother, Daniel Clark of Detroit, Mich., and two half-sisters, Mrs. Marjory Correy of Fremont, Ind., and Miss Margaret Clark.

Funeral services were held Friday afternoon in his home in charge of the Rev. J. P. Leeper and the John C. Fremont post. Burial was made in the Alliance cemetery.

Announcement is made of the birth of a son to Dr. and Mrs. Frank J. Mangus of Salem at the Salem City hospital. Mrs. Mangus was formerly Miss Edith Pasig of Salem. Dr. Mangus is a nephew of Mrs. J. H. Felgar and Mrs. D. W. Thomas of Homeworth.

The eleventh annual reunion of the Weaver family was held at Placencia lake and was attended by 100 relatives from Alliance, Chester, Salem, Toronto, Canada, Barberton, Maximo, Moultrie and Homeworth.

After dinner a business meeting was conducted by the president, E. G. Weaver. The following officers were re-elected: President, E. G. Weaver, Moultrie; vice president, Mrs. G. W. Glass, Alliance; secretary, Mrs. H. W. Stoll, Alliance; treasurer, Henry Weaver, Moultrie.

The president appointed D. W. Glass, Mrs. William Stewart and Miss Fern Saffell on the sports committee next year.

The 33rd annual reunion of the Yeagley-Benner families will be held Saturday, July 28, at Silver Park.

Sebring

Averam Nann, 49, living at 123 Allden avenue, East Alliance, was found dead at his home Monday. Coroner M. E. Hayes of Youngstown, rendered a verdict that death was caused by tuberculosis. Funeral services were held Thursday afternoon from Meesman's funeral parlors. Burial was made at North Penton.

The city will require \$28,000 for operating expenses for next year, according to figures submitted by city

Clerk James Elliott to council meeting Monday evening. The increase is due to \$3,000 being set aside for the purchase of a new fire truck. In addition to this sum, the city will have \$2,500 in another fund that can be transferred. The sum will be placed in the general fund out of which all operating and special fund expenses are drawn.

Ten days is the true limit allowed property owners in Sebring to repair broken and sagging walks. After that period the city will do the repairing and place the cost on the tax duplicates for collection.

Robert Atkinson, who pleaded guilty of robbing the Dew Drop pool room last week, was bound over to the grand jury at Youngstown under \$1,000 bond.

Report of the recent Rotary International convention at Minneapolis, Minn., was made by Dr. G. Y. Davis, retiring president of the club who with his wife toured the west for several weeks after attending the convention.

Women Delight in its marvelous handling ease

Offering smartness and distinction never before attained in any low-priced six and reflecting exceptional good taste in appointments and upholstery, the Pontiac Six is a car which invariably wins feminine admiration. And that admiration turns to sheer delight when they leave the back seat and drive the car themselves.

They know the Pontiac Six is a dependable car. And they quickly discover an ease of handling that

makes every mile a pleasure. The powerful four-wheel brakes answer the lightest touch. The big motor is smooth, quiet and responsive, and the clutch and transmission are exceptionally easy acting.

Every day you see more and more women at the wheels of Pontiac Sixes—because Pontiac provides, at a price within reach of almost every purse, everything that women demand in a motor car of their own.

PLAN TO POUR CONCRETE JULY 25 ON YOUNGSTOWN ROAD AT ROGERS

Rogers Signal Detour Will be Used for Three Weeks—Ready to Surface East Palestine Highway.

LISBON, O., July 20.—Construction of the new East Liverpool—Youngstown road has reached the Rogers corporation line. With favorable weather prevailing this highway will be connected with the concrete road in the Rogers-Middleton section within the next 10 days.

While concrete is being poured on the section north of Ball creek, the detour into Rogers over the Rogers-Signal road will be used for three weeks.

This road is now open through Williamsport to the Clarkson-Elkton road and thence into Lisbon.

Lewis & Copeland, of Lima, O., recently awarded the contract for the surfacing of the East Palestine-East Liverpool road in Middleton township will begin work July 25.

Materials will be delivered on sidings at Negley, and the first pouring of concrete will begin at the St. Clair-Middleton township line.

Surveys are now being made for the grading of the Elkton-Signal-Rogers and the Lisbon-Columbiana roads, this work having been ordered by the state highway department. Both roads are included in the federal highway system.

FACES SECOND DIVORCE SUIT

LISBON, O., July 20.—Horace Hawkswood, employed at a tire shop, has been taking his former wife from whom he is divorced, to hotels and restaurants, according to a petition for divorce filed by his present wife, Flora A. Hawkswood, of East Liverpool.

Hawkswood married his second wife at New Cumberland, W. Va., Oct. 6, 1925. The petition charges Hawkswood with gross neglect of duty and extreme cruelty.

Hill and Davidson represent Mrs. Hawkswood.

NAMES BEN WOLK IN \$1,000 CASE

LISBON, O., July 20.—Suit seeking \$11,000 damages under two counts has been filed in common pleas court against Benjamin Wolk, a junk dealer at 222 South Broadway, East Liverpool, by Frances Wolfe, through her counsel, P. V. Mackall.

The plaintiff declares that on July 18 Wolk thru cans, bottles, stones and bricks at her and struck her on the foot. She seeks \$1,000 damages for this.

For alleged slanderous statements, \$10,000 is asked.

ALIMONY ORDER IN DODDS ACTION

LISBON, O., July 20.—An alimony order has been entered in the Los Angeles county, California, court against James H. Dodds in favor of his wife, Mary E. Dodds, according to a transcript filed with County Recorder Paul H. Smith. Dodds is to pay his wife \$100 monthly and, in addition, \$250 as counsel fees.

The court has ordered Dodds to file with the court trustees a deed for lot 642 in Sallenville as security for payment of the alimony and counsel fees.

FAIL TO APPROVE ORPHANAGE WORK

LISBON, O., July 20.—Trustees of the Fairmount Children's home, Alliance, are not satisfied with the construction of floors in the new hospital building, it developed yesterday at the joint session of the Columbiana county and Stark county commissioners.

Approval of the contract will not be given until corrections have been made by contractors.
